

NEED Poster Instagram Activity

BIOMASS

Complete the following activity after reading the BIOMASS at a Glance informational poster.

Instructions:

You are a photographer on assignment. Your task is to visit any number of existing Biomass plants and take pictures at these locations. After your visit, you decide to post your favorite picture on Instagram. Be sure to complete all of the information for your Instagram post:

1. Your username as a scientific photographer.
2. Your location; where was this picture taken?
3. Draw what you photographed (ex. A power plant burning waste to produce energy).
4. Quantify your post by writing a number of likes for your photo.
5. Rewrite your username to begin your caption.
6. Inform your audience about your trip to this power producing site. What might they learn about BIOMASS from your picture and caption combination?
7. Include two hashtags related to your post.

1 _____

2 _____
