

# Careers in Energy

## Research Graphic Organizer

Name: \_\_\_\_\_ Class Period: \_\_\_\_\_ Date: \_\_\_\_\_

### STEP ONE: Planning

Here are a few questions you should consider:

1. Which job would you consider as a career in the energy sector?
2. How much schooling will you have to complete in order to meet the necessary qualifications for this career?
3. What type of job training do you have to go through?
4. What degree do you need for the career you are interested in?
5. Describe in detail what is the most interesting part of your career?
6. What is the job description?
7. Will this career path provide you with an opportunity to grow in this type of job?
8. What's the average salary (hourly, yearly) you could make working at this job?
9. Is there job security in this type of job or will it cease to exist in the future?
10. What should people considering this type of job be interested in?
11. Would you consider working in this field in the future?
12. How successful do you think you would be in this type of job?

### STEP TWO: State your research question
